Total Faults

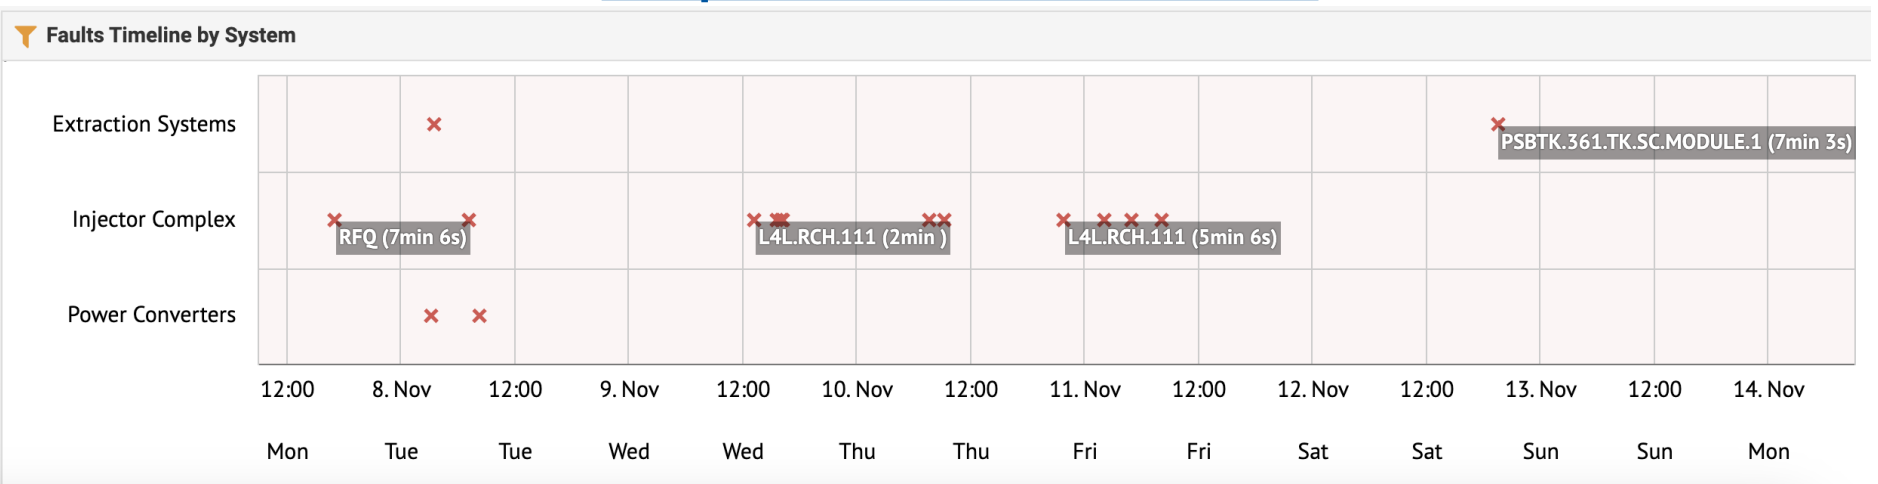

16

Fault Duration (overlap excluded)

1.0h

Report Week 45: AFT

- Most of the downtime came from the Linac 4.
- Just a few resets needed.
- Tuesday, we fulfilled a last-minute request for a Staggered beam for Isolde.
- As a matter of test, we prepared a TOF at 1.4 GeV and sent it to the PS.
- Otherwise, all operational and MD beams were delivered to the users as planned.

- Coordinator this week: A. Findlay (163961)
