

# Diamond Light Source Site Report

*Monday, October 31, 2022 12:45 PM (15 minutes)*

Diamond Light Source is the UK's national synchrotron. Based on the RAL site, Diamond provides researchers with access to X-Ray techniques which are free at the point of use for academics.

This talk updates HEPiX on the latest developments at Diamond such as a new HPC scheduler, Kubernetes developments, MFA for SSH and staff changes.
