

# WP4 status progress

## 5 WP4 meetings held, 1 joint WP4-WP5 meeting

### Topics discussed:

- Forecasted number and socio-economic value of **scientific products**
- Preliminary estimate of the socio-economic benefit of **virtual visitors**
- Estimation of the benefit from the development of **a new online collaborative tool**: results of a survey on Indico
- Method to estimate the socio-economic value of **CERN spin-off companies**
- Results of the survey to the general public: their **willingness to pay for CERN research**
- **Key performance indicators** to be used in WP5 outlets

### Plans ahead:

- **Refinement** of benefit estimates
- Development of the probabilistic model and **Montecarlo simulation**
- Started discussion about **how to communicate** in an integrated manner the results of all the socio-economic studies; it will continue in January with meetings with other partners
- **June 2023**: internal deadline to draft the report of the socio-economic impacts of FCC-ee
