

# TWEPP 2011 Topical Workshop on Electronics for Particle Physics

## Tuesday, September 27, 2011

### B1b - Systems, planning, installation, commissioning and running experience - Room EI 8 (11:00 AM - 12:40 PM)

-Conveners: Ken Wyllie

time	[id] title	presenter
11:00	<del>A14</del> [A14] The Electronics System of the ALFA Forward Detector for Luminosity Measurements in ATLAS	Mr ANGHINOLFI, Francis
11:25	<del>A10</del> [A10] Electronics for the camera of the First G-APD Cherenkov Telescope (FACT) for ground based gamma-ray astronomy	Mr VOGLER, Patrick
11:50	<del>A9</del> [A9] Characterisation Of The NA62 GigaTracker End of Column Demonstrator Hybrid Pixel Detector	Dr NOY, Matthew
12:15	<del>PM0</del> [PM0] Development of an ATCA IPMI Controller Mezzanine Board and its usage on an ATCA ROD Evaluator board for the ATLAS LAr upgrade	DUMONT DAYOT, Nicolas
