

# TWEPP 2011 Topical Workshop on Electronics for Particle Physics

## Wednesday, September 28, 2011

### OPTO WG: Experience with running systems - Room EI 7 (4:30 PM - 5:55 PM)

-Conveners: Tobias Flick; Francois Vasey

time	[id] title	presenter
4:30 PM	[190] Introduction: What has been presented in March miniworkshop, what talks and posters are foreseen in opto session	FLICK, Tobias
4:40 PM	[191] LHCb: Status of the optical system / optical system upgrades and associated developments	WYLLIE, Ken
4:55 PM	[192] CMS Tracker: Status of the optical system / optical system upgrades and associated developments	Dr TROSKA, Jan
5:10 PM	[193] CMS ECAL: Status of the optical system / optical system upgrades and associated developments	SINGOVSKI, Alexander
5:25 PM	[194] CMS HCAL: Status of the optical system / optical system upgrades and associated developments	HAZEN, Eric Shearer
5:40 PM	[195] ATLAS LArg: Status of the optical system / optical system upgrades and associated developments	SIMION, Stefan

### OPTO WG: Environmental resistance tests - Room EI 7 (5:55 PM - 6:30 PM)

-Conveners: Francois Vasey; Tobias Flick

time	[id] title	presenter
5:55 PM	[196] Introduction: What has been presented i March miniworkshop, what talks and posters are foreseen in opto session	FLICK, Tobias
6:00 PM	[197] CERN irradiation studies	Dr TROSKA, Jan
6:15 PM	[198] SMU cryogenic tests	LIU, Tiankuan
