

PhD School on QCD in Extreme Conditions

Sunday, 23 July 2023

Neutron stars & multi-messenger physics: Introduction to neutron stars - Room E.10A (16:00 - 17:30)

-Conveners: Carolyn Raithel

time	[id]	title	presenter
16:00	[10]	Introduction to neutron stars	RAITHEL, Carolyn

Monday, 24 July 2023

Neutron stars & multi-messenger physics: Neutron star masses, radii, and the dense-matter equation of state - Room E.10A (14:00 - 15:30)

-Conveners: Carolyn Raithel

time	[id] title	presenter
14:00	[11] Neutron star masses, radii, and the dense-matter equation of state	RAITHEL, Carolyn

Tuesday, 25 July 2023

Neutron stars & multi-messenger physics: Neutron star masses, radii, and the dense-matter equation of state - Room E.10A (10:30 - 12:00)

-Conveners: Carolyn Raithel

time	[id]	title	presenter
10:30	[12]	Gravitational wave astronomy: a new window into neutron star interiors	RAITHEL, Carolyn
