

Session Program

4-14 Jan 2023

Quarkonia As Tools 2023 (QaT2023+)

exclusive/diffractive reactions

Centre Paul Langevin
Aussois, Vanoise Massif, France

Tuesday 10 January

08:30

exclusive/diffractive reactions: Synergy between exclusive and inclusive reactions in different systems

Session | **Location:** Centre Paul Langevin, Aussois, Vanoise Massif, France

08:30–09:00 **Exclusive reactions in proton-proton collisions**

Speaker

Ronan McNulty

09:00–09:30 **Review on ultra-peripheral collisions**

Speaker

Charlotte Van Hulse

09:30–10:00 **Dissociative reactions**

Speaker

Michael Andreas Winn

10:00–10:15 **Q&A session**

Speakers

Chris Flett, Michael Andreas Winn, Ronan McNulty

10:15–10:45 **Coffe break**

10:45–11:15 **Photon induced processes in PbPb collisions with nuclear overlap**

Speaker

Laure Marie Massacrier

11:15–11:45 **Inclusive quarkonium production in UPCs**

Speaker

Kate Lynch

11:45–12:00 **Q&A session**

Speaker

Kate Lynch et al.

12:00
