

## **Session Program**

**3-8 Sept 2023**

**Low-x 2023**

***Soft diffraction***

Leros island, Greece  
Crithoni's Paradise 4\* Hotel

# Monday 4 September

14:00

## Soft diffraction

**Session** | **Location:** Leros island, Greece, Crithoni's Paradise 4\* Hotel

14:00–14:30 **Recent TOTEM results**

### Speaker

Christophe Royon

14:30–15:00

## Lévy $\alpha$ -stable model for the non-exponential low- $|t|$ proton-proton differential cross section

### Speakers

Istvan Szanyi, Mr István Szanyi

15:00

15:30

## Soft diffraction

**Session** | **Location:** Leros island, Greece, Crithoni's Paradise 4\* Hotel

15:30–16:00

## Nonresonant central exclusive production of charged hadron pairs in proton-proton collisions at 13 TeV in CMS and TOTEM

### Speaker

Ferenc Siklér

16:00–16:30

## Physics potential of a combined data-taking of the LHCf and ATLAS Roman Pot detectors

### Speaker

Clara Elisabeth Leitgeb

16:30–17:00

## Single and double photon bremsstrahlung in pp to pp at the LHC

### Speaker

Antoni Szczurek

17:00–17:30

## Imaging the odderon from exclusive $\eta_c$ production at the EIC

### Speaker

Sanjin Benić

17:30–18:00

## Discussion: soft diffraction

### Speakers

Christophe Royon, Ferenc Siklér

18:00
