

## **Session Program**

**3-8 Sept 2023**

**Low-x 2023**

***Final states, quarkonium***

Leros island, Greece  
Crithoni's Paradise 4\* Hotel

## Friday 8 September

11:00

### Final states, quarkonium

**Session** | **Location:** Leros island, Greece, Crithoni's Paradise 4\* Hotel

11:00–11:30

#### New results constraining transversity in high-energy polarized p+p collisions

**Speaker**

Prof. Bernd Surrow

11:30–12:00

#### Recent results on direct determination of the Collins-Soper kernel and how to measure it at the LHC?

**Speaker**

Armando Bermudez Martinez

12:00–12:30

#### Discussion: final states, quarkonium

**Speakers**

Achim Geiser, Armando Bermudez Martinez, Jean-Philippe Lansberg

12:30
