

## Recent LFV Results From CMS

*Friday 25 August 2023 17:30 (30 minutes)*

Several experimental observations lead to the availability of lepton-flavor violating(LFV) processes, which is also thoroughly examined by the CMS experiment. In this presentation, several recent LFV results from CMS within different sectors are presented.

**Presenter:** KIM, Youngwan (Seoul National University (KR))

**Session Classification:** parallel (room#303)
