

# Phenomenology 2023 Symposium

## Monday 8 May 2023

### Cosmology I (14:15 - 16:00)

-Conveners: Jay Hubisz

| time  | [id] title   | presenter          |
|-------|--|--------------------|
| 14:15 | [41] Cornering Extended Starobinsky Inflation with CMB and SKA                                   | SCHOSSER, Benedikt |
| 14:30 | [75] Gauged quintessence   | LEE, Jiheon        |
| 14:45 | [85] Seeing highly anisotropic gravitational wave backgrounds from phase transitions             | BODAS, Arushi      |
| 15:00 | [238] Enhancing CMB acoustic phase shift with dark matter loading                                | HO, Daven Wei Ren  |
| 15:30 | [202] Cosmic Stasis from Primordial-Black-Hole Evaporation and Its Phenomenological Implications | THOMAS, Brooks     |
| 15:45 | [192] Chiral Plasma Instability in the Early Universe  | KAHNIASHVILI, Tina |
