

Phenomenology 2023 Symposium

Tuesday, May 9, 2023

BSM XIV (2:00 PM - 4:00 PM)

-Conveners: Saarik Kalia

time	[id] title	presenter
2:00 PM	[230] Cosmological challenges for dark sectors with new gauge forces	MCGINNIS, Navin
2:15 PM	[81] A new picture for scalar boson superpartners, with only second-order gauge couplings and reduced cross-sections	Prof. ALLEN, Roland
2:30 PM	[261] Probing BSM physics with Solar and Atmospheric Neutrinos in Dark Matter Experiments	Mr SCHWEMBERGER, Tom
2:45 PM	[247] Light Neutrinophilic Dark Matter from Scotogenic Model	PADMANABHAN KOVILAKAM, vishnupk
3:00 PM	[183] Inevitable Large non-Gaussianity from Curvaton Models	LODMAN, Jacqueline
3:15 PM	[31] To profile or to marginalize - A SMEFT case study	ELMER, Nina
3:30 PM	[17] Searches for BSM physics using challenging and long-lived signatures with the ATLAS detector	LUTZ, Margaret Susan
3:45 PM	[295] Title: Baryogenesis in Mirror Twin Higgs	YUAN, Zhihan (Linda)
