unconventional.dev

Your partner for Indico services

01.

Indico

Cook It Yourself ™

Get Indico – DIY flow

01

Read the docs

Or not... If you are brave!

02

Install in prod

CentOS or Debian?
Apache or Nginx?
SSL certificates?

03

Backup & monitor

You don't want angry users, do you?

04

Support & upgrade

The world keeps spinning.
Your Indico instance too!

Get Indico – Out of the box?

Not yet a reality...

- Indico Global never happened.
- Indico hosting partners didn't exist.
- Indico experts were hard to come across.

Still today, chances are:

- You'll be doing lots of things yourself.
- Asking lots of questions to your friends.

“...Mm, gonna try with a little help from my friends”

—The Beatles

About us

Your new best friends

UNCONVENTIONAL Development SÀRL

Startup

Recently incorporated
November 2022

IT services

For conference management
Focused on Indico

Swiss based

Headquarters in Geneva
Offering services globally

CERN spin-off*

Founded by CERN alumni
Indico veterans

The team behind

Alejandro Avilés

Software Engineer
Indico Developer

Beatriz Medina

Operations Manager
Project Manager

Johannes Leidner

Physicist CERN Alumni
Indico Power User

Committed to Indico

Outreach

Present Indico beyond academic communities

Contributions

Improve Indico core functionality and UX

Adoption

Help smaller institutes and industry adopt Indico

Extensions

Make Indico even more versatile via plugins

03.

Services

Supercharging the Indico ecosystem

Weightlifting we offer

Hosting

Indico instances require maintenance, we can take care of that.

Development

Indico is a very complex software project, we know it inside out.

Support

Indico provides tons of options, we can help choose the right ones.

04.

Hosting

Your infrastructure will love some love

State-of-the-art hosting

1. Highly available

We'll guarantee network access and sufficient storage for uploads.

2. Regularly updated

We'll keep your Indico instance up-to-date with the latest features and security patches.

3. Monitored

We'll supervise the health of your instance to identify and resolve any issues.

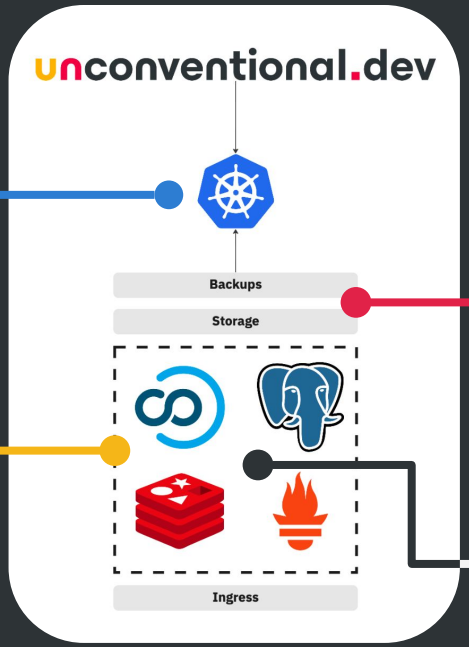
4. Backed up

We'll always keep your data safe and you'll always be able to export it.

Cloud native deployments

Kubernetes

Scalable deployments for multiple organizations



Persistent volumes

Guaranteed disk space and backups

Each organization has an isolated environment

Namespaces

Replica sets guarantee uptime of the system

Container pods

05.

Development

Tailoring software to your size and needs

Embracing open source

Upstream contributions	Improving Indico core for you and everyone else	*Would you like to see a bugfix or new feature implemented?*
Plugin development	Publishing new open source Indico plugins	*Are you missing an integration with another platform?*
Customized solutions	Adapting Indico to your specific needs	*Do you require to alter built-in features or workflows?*

06.

Support

You'll never be alone again

Navigating Indico

Onboarding and training

Sessions for event managers to make the most out of the platform

Workflow consultancy

Advice on how to configure events to fit your protocols

Technical support

Assistance included with hosting and development plans

A new journey begins now
