

Canonical: deploying Indico using Charmed Operators

Monday 20 March 2023 11:50 (10 minutes)

We will demonstrate how to deploy Indico at scale using Charmed Operators, enabling you to efficiently run the platform on your infrastructure or a public cloud. This is essential for performance and scalability when running an event with many participants. Join us to learn more about our experience with Indico and explore its full potential.

Presenter: HADDON, Tom

Session Classification: Monday Morning Session
