

1st High Temperature superconductors for Accelerator Technology (HiTAT)  
workshop

Contribution ID: 37

Type: **not specified**

**Quench propagation in REBCO cables: towards  
better numerical tools to understand the mechanisms**

*Friday 10 March 2023 15:40 (20 minutes)*

**Presenter:** SIROIS, Frederic (Polytechnique Montreal, Canada)

**Session Classification:** Session 4: REBCO Technology
