

AGLT2 Site Report Spring 2023

Monday 27 March 2023 12:45 (15 minutes)

We will present an update on our site since the Fall 2021 report, covering our changes in software, tools and operations.

Some of the details to cover include the details of our recent hardware purchases, our network upgrades and our preparations to select and implement our next operating system and associated provisioning systems. We will also discuss our work with Elasticsearch and our efforts to implement the WLCG Security Operations Center components. We conclude with a summary of what has worked and what problems we encountered and indicate directions for future work.

Primary authors: HAYDEN, Daniel (Michigan State University (US)); LAURENS, Philippe (Michigan State University (US)); MC KEE, Shawn (University of Michigan (US)); Ms DRONEN, Wenjing

Presenter: MC KEE, Shawn (University of Michigan (US))
