

HEP2023 - 40th Conference on Recent Developments in High Energy Physics and Cosmology, Ioannina, Greece

Wednesday 5 April 2023

Parallel (Theory) - Main Auditorium (17:00 - 19:40)

-Conveners: KONSTANTINOS DIMOPOULOS

| time | [id] title | presenter |
|-------|---|---------------------------|
| 17:00 | [75] Heavier tail likelihoods for robustness against data outliers; Applications to the analysis of Gravitational Wave data | SASLI, Argyro |
| 17:20 | [60] Ending inflation with a bang: Higgs vacuum decay in $R + R^2$ gravity | Dr MANTZIRIS, Andreas |
| 17:40 | [9] Black hole solutions In Chern-Simons Gravity with Axion Hair | CHATZIFOTIS, Nikos |
| 18:00 | [11] On Thermal Stability of Hairy Black Holes | DORLIS, Panagiotis |
| 18:20 | [71] How Large can the SUSY Contributions to $b \rightarrow s \ell \ell^+ \ell^-$ Processes be? | Mr MANTZAROPOULOS, Kostas |
| 18:40 | - | |
| 19:00 | - | |

Friday 7 April 2023**Parallel (Theory) - Room next to the main auditorium (17:00 - 19:00)****-Conveners: Athanasios Dedes**

| time | [id] title | presenter |
|-------|--|---------------------------|
| 17:00 | [59] T-Model Higgs Inflation In Supergravity | PALLIS, Constantinos |
| 17:20 | [1] Anomalous and axial Z' contributions to g-2 | Dr ANASTASOPOULOS, Pascal |
| 17:40 | [79] Aspects of Relativistic and Carrollian fluids | SIAMPOS, Konstantinos |
| 18:00 | [2] Goldstino condensation | FARAKOS, Fotis |
| 18:20 | [70] Compact objects in gravity theories | Dr BAKOPOULOS, Athanasios |
| 18:40 | [66] Universal Relations for rapidly rotating neutron stars using supervised machine learning techniques | Mr PAPIGKIOTIS, Grigorios |
