

WLCG Service Report

5 weeks, October 18 – November 21

WLCG Management Board, November 21

Panos Paparrigopoulos

v1.0

Operations Coordination meetings

- These meetings normally are held **once** per month
 - Usually on the first Thursday
- Each meeting has a standard agenda plus usually at least one **dedicated topic**, announced in advance
- Experiments and sites are kindly asked to have the **relevant experts** attend, depending on the topic(s)
- Next meeting on December 7
 - TBD

Operations Coordination highlights (1)

- IPv6 deployment campaign
 - The next steps were presented after approval by the MB
- HTCondor CE upgrade campaign on EGI
 - GGUS tickets have been opened for 53 sites to have the condor rpms on their CEs upgraded to 9.0.20 and configure SSL mappings for VOs that cannot switch to tokens yet
 - For more details visit <https://confluence.egi.eu/x/EYAtDQ>
- News on monitoring
 - Finished validation of the new XRootD monitoring flow for one EOS server per LHC experiment at CERN. More sites to follow soon.
 - New dCache XRootD monitoring to be validated with DESY.
 - Site network monitoring update: 30 out of 63 contacted sites are providing the expected data.

Selected items from Operations (1)

- Nothing major to report

Service Incident Reports

- No new report
