

9th Symposium on Frequency Standards and Metrology

Friday, 20 October 2023

Compact Clocks (08:30 - 10:30)

-Conveners: Erling Riis

time	[id] title	presenter
08:30	[81] The Deep Space Atomic Clock: Demonstration of a Trapped Ion Atomic Clock in Space	BURT, Eric
09:00	[163] Micro mercury ion clock with frequency stability performance comparable to that of rack mount Cs frequency standards	YU, Nan
09:30	[116] Compact and Manufacturable Ultrastable Optical Reference Cavities: 10^{-14} Stability in Less Than 10 mL Volume	QUINLAN, Franklyn
10:00	[119] Optical Lattice Clocks at NPL	HILL, Ian
