

EOS 2023 Workshop

Contribution ID: 5

Type: **10 Minutes**

EOS for Users Report

Thursday 27 April 2023 11:45 (10 minutes)

EOS for users service, internally known as EOSHPM (EOSHOM, EOSPROJECT and EOSMEDIA) currently stores 2.8 billion files and more than 20PB of storage. We store data of more than 45,000 users and project spaces and host multimedia related use cases for the IT Department. Data is accessed via filesystem (fuse), CERNBox (Web interface, Sync/Mobile client), SAMBA and HTTP. We will be reporting on achievements and challenges in 2022 and future service Roadmap.

Authors: BAGAKIS, Emmanouil (CERN); VALVERDE CAMESELLE, Roberto (CERN)

Presenters: BAGAKIS, Emmanouil (CERN); VALVERDE CAMESELLE, Roberto (CERN)

Session Classification: EOS Ecosystem

Track Classification: EOS, Data Management and Applications
