

EOS 2023 Workshop

Contribution ID: 40

Type: **not specified**

What you wish you knew about ... tokens!

Tuesday 25 April 2023 11:25 (15 minutes)

This presentation gives an overview of the token support in EOS. We'll discuss the configuration options, what plugins need to be enabled for the various protocols and how to configure them. Besides this, we'll trace one particular request using tokens to see how it interacts with the existing authentication/authorization features that already exists in EOS and provide some helpful examples.
