

Thursday 27th April 14:00-16:00

IT Amphitheatre (same room as the EOS workshop)

BoF Session – Would you like to have CERNBox in your institution?

We are aware that the use-cases for a Sync & Share platform and Scientific storage have historically been separate entities, but we are witnessing a change in thinking with a need to bring these two systems together to provide end-users with a unified solution.

Interested parties are welcome to share their EFSS solutions or plans so that we can better understand the potential adoption of this new unified platform
