

The Influence of Gadolinium on the Photocatalytic Performance of ZrO₂-g-C₃N₄ Systems Towards the Degradation of an Organic Dye in Water

Abstract Category

Materials Physics

Primary author: Mr BANDO, Charles Kwame (Department of Chemical Sciences, University of Energy and Natural Resources, Sunyani, Ghana)

Co-authors: Dr DANU, Bernice Yram (Department of Chemical Sciences, University of Energy and Natural Resources, Sunyani, Ghana); Dr AGORKU, Eric Selorm (Department of Chemistry, Kwame Nkrumah University of Science and Technology, Kumasi, Ghana); Prof. AMPONG, Francis Kofi (Department of Physics, Kwame Nkrumah University of Science and Technology, Kumasi, Ghana); Mr TOKU, Mandela (Regional Water and Environmental Sanitation Centre, Kwame Nkrumah University of Science and Technology, Kumasi, Ghana); Mr HARUNA, Moro (Department of Chemistry, Kwame Nkrumah University of Science and Technology, Kumasi, Ghana); Prof. NKUM, Robert Kwame (Department of Physics, Kwame Nkrumah University of Science and Technology, Kumasi, Ghana)

Presenter: Mr BANDO, Charles Kwame (Department of Chemical Sciences, University of Energy and Natural Resources, Sunyani, Ghana)

Track Classification: Physics Research
