

Session Program

14-19 May 2023

**Blois 2023: 34th Rencontres de Blois on
"Particle Physics and Cosmology"**

***Parallel Session Tuesday - Heavy Ions and
QCD***

Gaston d'Orléans

Tuesday 16 May

17:00

Parallel Session Tuesday - Heavy Ions and QCD

Session | Location: | Convener: Laure Marie Massacrier

17:00–17:20 **Studies on the hadronization of charm and beauty quarks with ALICE**

Speaker

Luigi Dello Stritto

17:20–17:40

Long-range correlation at low-multiplicity in pp collisions at 13TeV with ALICE

Speaker

Jasper Parkkila

17:40–18:00

Recent results on J/psi photoproduction in UPCs with ALICE

Speaker

Tomas Herman

18:00–18:20

New directions in the study of (hyper)nuclei formation in ALICE

Speaker

Bhawani Singh

18:20–18:40

ALICE insights into strangeness production in pp collisions

Speaker

Francesca Ercolessi

18:40–19:00

Heavy-flavour jet measurements in pp and Pb-Pb collisions with ALICE

Speaker

Vit Kucera

19:30
