

Blois 2023: 34th Rencontres de Blois on "Particle Physics and Cosmology"

Wednesday 17 May 2023

Parallel Session Wednesday - Dark Matter & Cosmology - Rotonde (16:00 - 19:20)

-Conveners: Asher Berlin

time	[id] title	presenter
16:00	[506] Dark Matter searches with the MAGIC telescopes	VITALE, Vincenzo VITALE, Vincenzo
16:20	[507] Updated constraints on sub-GeV Dark Matter	KOECHLER, Jordan
16:40	[508] NEWSdm : directional dark matter searches with nuclear emulsion	ALEXANDROV, Andrey
17:00	[510] DAMIC-M: Status and First results	LANTERO BARREDA, Agustin
17:20	[511] Spectral Distortions from Dark Turbulence	RATZINGER, Wolfram
17:40	[512] Unveiling dark fifth forces with linear cosmology and LSS	BOTTARO, Salvatore
18:00	[513] Gravitational production of matter and radiation during reheating	CLERY, Simon
18:20	[514] Probing solutions to the S8 tension with galaxy clustering	CARRILHO, Pedro
