

Session Program

21-26 May 2023

LISA Conference

Ion beam production

Maria Theresia College, Auditorium 00.14 for lectures & HOGC - 00.50 Chapel for poster sessions
Sint-Michielsstraat 6, 3000 Leuven, Belgium

Thursday 25 May

14:00

Ion beam production

Session |

Location: Maria Theresia College, Auditorium 00.14 for lectures & HOGC - 00.50 Chapel for poster sessions, Sint-Michielsstraat 6, 3000 Leuven, Belgium

14:00-14:30

Target microstructure engineering impact on the production of radioactive ion beams: the challenge of high boiling point elements

Speaker

Dr Joao Pedro Ramos

Location

Maria Theresia College, Auditorium 00.14 for lectures & HOGC - 00.50 Chapel for poster sessions, Sint-Michielsstraat 6, 3000 Leuven, Belgium

14:30-14:50

Production of actinide atomic and molecular ion beams at CERN-ISOLDE

Speaker

Mia Au

Location

Maria Theresia College, Auditorium 00.14 for lectures & HOGC - 00.50 Chapel for poster sessions, Sint-Michielsstraat 6, 3000 Leuven, Belgium

14:50-15:10

Influence of the temperature profile on ionisation in a surface ion source at ISOL@MYRRHA

Speaker

Sophie Hurier

Location

Maria Theresia College, Auditorium 00.14 for lectures & HOGC - 00.50 Chapel for poster sessions, Sint-Michielsstraat 6, 3000 Leuven, Belgium

15:10-15:40

Coffee break

15:50
