

Session Program

17-21 Apr 2023

11th Beam Telescopes and Test Beams Workshop

Overview Lectures

DESY
Hamburg, Germany

Monday 17 April

13:30

Overview Lectures: I

Session | **Location:** DESY Auditorium | **Convener:** Paul Schütze

13:30-14:15

Silicon sensor technologies for vertex and tracking detectors at future e+e- colliders

Speaker

Dominik Dannheim

14:30

14:15-14:30

Discussion

Tuesday 18 April

09:00

Overview Lectures: II

Session | **Location:** CSSB Auditorium | **Convener:** Jan-Hendrik Arling

09:00–09:45

From Sensor to Detector - with some Obstacles

Speaker

Ingrid-Maria Gregor

10:00

09:45–10:00

Discussion

Wednesday 19 April

09:00

Overview Lectures: III

Session | **Location:** DESY Auditorium | **Convener:** Anastasiia Velyka

09:00–09:45 **Experiments and detectors in photon science**

Speaker

David Pennicard

10:00

09:45–10:00 **Discussion**

Thursday 20 April

09:00

Overview Lectures: IV

Session | **Location:** DESY Auditorium | **Convener:** Federica Oliva

09:00–09:45 **Tracking in particle detectors**

Speaker
Nicholas Styles

10:00

09:45–10:00 **Discussion**
