

## Session Program

17-21 Apr 2023

# 11th Beam Telescopes and Test Beams Workshop

## *Experiments - LHC*

DESY  
Hamburg, Germany

# Monday 17 April

17:00

## Experiments - LHC

**Session** | **Location:** DESY Auditorium | **Convener:** Tamar Zakareishvili

17:00-17:20

### The monolithic ASIC for the high precision preshower detector of the FASER experiment at the LHC

**Speaker**

Jorge Andres Sabater Iglesias

17:20-17:40

### Recent test beam results of the ATLAS ITk Pixel detector

**Speaker**

Christopher Krause

17:40-18:00

### Testbeam results for the ATLAS ITk Strip upgrade

**Speaker**

Geetika Jain

18:00-18:20

### Test-beam qualification of a Pixel-Strip module for the CMS Outer Tracker Phase II Upgrade

**Speaker**

Younes Otari

18:20-18:40

### Testbeam Analysis for the LHCb Upgrade-II Mighty Tracker

**Speaker**

Ryunosuke O'Neil

18:40-19:00

### Longevity studies for the CMS Drift Tube System towards HL-LHC

**Speaker**

Valentina Sarkisovi

19:00
