20th April 2023

The Career Paths Session

- Session of the BTTB workshop introduced last year, dedicated to career development.
→ workshop participants are PhDs, PostDocs and seniors in the field of experimental particle physics / detector development
- Allocated time slot: **Thursday evening (6:00PM - 8:00PM)**
OPEN EVENT also for invited PhD students and PostDocs from DESY campus, from various fields.

Open networking after discussion with **snacks and drinks!**

The Speakers

- Rachel Bray, CERN Alumni Network, **Head of CERN Alumni Relations.**
- Alessia Renardi, **Research and Development Engineer at Littelfuse.**
- Enrico Schioppa Jr., **Project Manager at Inmatica S.p.A.**
- Katharina Dort, **Senior Associate at KPMG.**
- Julie Lu, **Talent Acquisition Specialist at Nexperia.**

Thanks a lot for your participation!

The Format

- each speaker will introduce him/herself quickly
 - what was the career path taken?
 - what is the job now? how compared to before?
- then the stage is open for your questions to our panel
 - from the room as well as from remote
- afterwards, open networking with the in-person speakers and your fellows

Let's discuss!

*in-person
