

Action #	State	Title	Description	TC #	Followed-up by	Comments
Closed Actions since last meeting						
2023-07-A2	Closed	Feedback for the RUCIO PSO	Collect the feedback for the RUCIO PSO and prepare it to be presented to the 3rd Steering Committee on the 9th of October.	7	Martin	
2023-07-A1	Closed	Consolidate non-x86 PSO	Consolidate the last phase of the PSO for 'Heterogeneous Architectures' with two milestones to be addressed: 1. Estimate resources for testbed implementation and 2. Prepare a workflow plan to move from test access to production.	7	Arne	
2023-05-A3	Closed	Prepare PSO for Rucio Scientific Data Management	Martin Barisits to develop a PSO Proposal to be presented at the RCS-ICT SC (ETA: October 23) and circulated beforehand to the RCS-ICT Technical Committee September 2023.	5	Martin	https://cernbox.cern.ch/s/k5AmLjWls49y6hT
2023-04-A2	Closed	LXPLUS future scenarios	Evaluate the feasibility of an activity together with the RCS community around AFS and LXplus future tackling the different inputs received. Bigger picture than strict \$HOME replacement and envisaging a potential change of model and practices. ETA 1st September TC meeting.	4	Kuba, Gavin	First discussion: https://indico.cern.ch/event/1233305/
2023-03-A3	Closed	CERN Scientific Information Landscape Project	Further feedback needed for the "CERN Scientific Information Landscape Project". Simone, Pere, Xavier to understand the way to move forward in organising discussions with the RCS stakeholders members. The chairs will report on this at the next TC.	3	Simone, Pere, Xavier	SIS further engaging with the community. New proposal expected based on a conceptual model.
2023-03-A2	Closed	Atlassian Community licence	Atlassian Community licence proposal. CERN IT-PW to contact the community via the representatives involved in the survey. Community is asked to provide feedback as soon as possible.	3	CERN IT-PW + all members of the technical committee	https://indico.cern.ch/event/1317042/
2023-08-A2	Being closed	LXPLUS evolution Task Force	Create "task force" with one representative from each RCS community (LHC experiments, SME,..) with the goal to develop a survey to be sent to the respective communities in order to find out the exact usages of the LXPLUS service. The lifetime of this task force should not be very long. The TC chairs will put the request to the TC members to appoint somebody from their communities.	8	Gavin/TC chairs	WG/TF created
2023-07-A3	Being closed	ITC critical services	Organise the input collection about the ICT critical services.	7	Zhecka	
2023-03-A4	Being closed	Google Workspaces	Better understand what features are really needed by the community. CERN-IT-PW to provide a status update by June at the 5th RCS-ICT TC and/or ITUM	3	CERN-IT-PW	Included in The Collaborative Tools PSO. Input to IT PoW. => Propose to create a new (wider scope) action: PSO update.

Open Actions						
2023-08-A1	WIP	Clarify overlap between the engagement and the	Clarify the overlap between the engagement and the innovation roadma	8	Simone + chairs	
2023-05-A4 + 20	WIP	Prepare PSO for IT-eLog	Gather the requirements for an e-log system of the RCS communities. Synchronise with the AT sector's needs. Compare IT providing a well-documented streamlined standard setup procedure (ready-to-use container images) versus IT providing a full stack e-log solution. Assess the effort required by the corresponding IT experts (web services, databases) by involving the related IT group. Prepare the PSO together with the IT-PW (Platforms & Workflows) group (suggestion after the first PSO review, action: 2023-06-A1)	5	Enrico, Zhechka	https://cernbox.cern.ch/s/vld2A4JLfBpOnWD
2023-05-A2	Not started	Study FTS support model	Understand the possibility to evolve the FTS project into a global group of supporters and contributors, to foster a more open collaborative community effort beyond High Energy Physics where organizations and stakeholders can discuss, collaborate and coordinate on FTS development and service activities	5	Luca	
2023-05-A1	Not started	Consolidate list of priorities of the FTS project	Send the list with priorities for ATLAS to FTS project leads. FTS project leads to consider if the suggested improvements can be folded in the FTS development roadmap with the current service staffing. Provide an Update to the RCS-ICT Technical Committee Q4-2023.	5	Alessandro and Luca	
Previously Closed Actions						
2023-06-A2	Closed	Collect participants contacts for the 2nd CERN IT Machine Learning Workshop	Collect the names of the RCS participants/presenters at the ML workshop by the end of July and provide them to Sofia and Ricardo.	6	Zhechka	https://cernbox.cern.ch/s/cu9sjPN7Y45ADco
2023-04-A1	Closed	PSO status tracking document	create a website with a table to track the progress of each PSO document and a summary page with the status of all projects	4	Xavier	https://cernbox.cern.ch/s/Rk6qu7LI5xQFoym
2023-03-A3	Closed	CERN Scientific Information Landscape Project	Further feedback needed for the "CERN Scientific Information Landscape Project". Simone, Pere, Xavier to understand the way to move forward in organising discussions with the RCS stakeholders members. The chairs will report on this at the next TC.	3	Simone, Pere, Xavier	SIS further engaging with the community. New proposal expected based on a conceptual model
2023-01-A3	Closed	List of tasks/topics	Set up the "live" google document for the list of topics	2	Xavi	2022-01-A2
2023-01-A2	Closed	Collect suggestions for topical presentation	send their suggestions to properly prepare the session in order to cover the interests of everyone	2	all members of the technical committee	

2023-01-A1	Closed	Prepare PSO for Access and Support for non-x86 architecture	Drive the preparation of a PSO document (Purpose-Scope-Objective) about the needs for non-x86 architectures by the RCS communities. The PSO document should ideally frame the approach and directions to take on the topic, reflecting the main aspects: Why (Purpose), What (Scope) and How/When (Objective). It was agreed that all the experiments should be kept in the loop and the relevant experts should be contacted.	2	Jakob, Danilo, Maria and Arne	https://cernbox.cern.ch/s/gdPh37EITnTqy8W
2022-01-A2	Closed	List of tasks/topics	Prepare the list of tasks that the communities' representatives will share with their communities in order to discuss internally the priorities.	1	Pere and Xavi	https://cernbox.cern.ch/s/3OpWvnO0HKc8jCJ https://docs.google.com/document/d/18N8pYszAjADnmvSz6lh7oIAmtlo1TLxEPzYvpDKa3F4/
2022-01-A1	Closed	Set of dates	Prepare a set of predefined dates for the next venues of the RCS-ICT Technical committee	1	Pere and Xavi
