

Session Program

18-20 Dec 2023

NuPhys2023: Prospects in Neutrino Physics

Neutrinoless double beta decays

King's College London
King's College London, Strand, London, WC2R 2LS

Wednesday 20 December

14:40

Neutrinoless double beta decays

Session | **Location:** King's College London, King's College London, Strand, London, WC2R 2LS | **Convener:** Lino Miramonti

14:40–15:00 **Sterile neutrinos in $0\nu\beta\beta$**

Speaker

Prof. Frank F Deppisch

15:00–15:30

Recent results and future experiments for neutrinoless double beta decays

Speakers

Cheryl Patrick, Cheryl Patrick

15:30–15:50

Latest results of the CUORE experiment and the status and prospect of the CUPID experiment

Speaker

Dr Monica Sisti

15:50
