

Discussion Points : (Results)

1. The Scale of the 'meeting' and title –
 - A. Should we include Japan to the joint meeting ? **Yes**
 - i. If 'yes', how about the budget application ?
Yes. We apply at first for Korea-China Program in this Dec. and we try to extend the application. In any case, we include 'Japan Heavy Ion Physicists' into the Joint-meeting. (See 2.iii for how-to-do)
 - ii. If 'yes, but later', how should we proceed the application?
 - B. How many participants are we expecting?
 - i. **We expect the number of participants at the 1st Joint meeting in Seoul, Korea : about 20 from HIM (Korea), about 20-30 from Ccast and Japan.**
 - ii. **In the 2nd and 3rd meeting at Japan and China, respectively, : we (HIM) would try to maintain and to expand the scale of the participants, + about 40-50 from Ccast and Japan, respectively.**
 - iii. **Consequently we could start the Joint meeting with (at least) 40-50 Participants including speakers.**
 - C. How long should the meeting be?
 - i. **At first about 3 full-day program.**
 - ii. **Later we can expand the program.**
 - D. How often the meeting should be?
 - i. **1 - 1.5 Y.**
 - E. How should it be financially supported?
 - i. **Local expense (only for the speakers) : host society**
 - ii. **Travel cost : self or any fund agency in each country if possible.**
 - F. How about the title 'Asian Triangle Heavy Ion Conference'? 'AT HIM'?
 - i. **ATHIC. We prefer a 'small conference' level workshop with many open discussions.**
2. The Organization Committee –
 - A. Organizer (Steering) :
 - i. HIM (tentative)
 1. Byoung-Sik HONG (Korea Univ.) Experiment **OK**
 2. Sangyong JEON (McGill Univ.) Theory **OK**
 3. Ju Hwan KANG (Yonsei Univ.) Experiment **OK**
 4. Chang-Hwan LEE (Pusan National Univ.) Theory **OK**
 5. Kang-Seog LEE (Chonnam National Univ.) Theory **OK**
 6. Su-Houng LEE (Yonsei Univ.) Theory **OK**

- 7. In-Kwon YOO (Pusan National Univ.) Experiment OK
- ii. Ccast
 - 1. Weiging CHAO (Ccast) Theory
 - 2. Huan HUANG (UCLA) Experiment
 - 3. Yugang MA (SINAP) Experiment
 - 4. Xin-Nian WANG (LBNL) Theory
 - 5. Nu XU (LBNL) Experiment
 - 6. Pengfei ZHUANG (Tsinghua Univ.) Theory
- iii. Japan (if then)
 - 1. Hatsuda Theory
 - 2. Miake Experiment
 - 3. ...
 - 4. ...
 - 5. ...
 - 6. ...

We'll kindly ask Hatsuda (Theory) and Miake (Experiment) for join the ATHIC and Organization of the committee.

- B. Advisory Committee (Honorol)
 - i. HIM : D.P.Min / M.Rho / K.S.Sim / ..
 - ii. Ccast : ...
 - iii. Japan : ...
- 3. Contents of the Meeting –
 - A. Topical Meeting ? Yes. The topics will be discussed and determined in the steering committee.
 - B. Annual Results Meeting ?
 - C. Specific Aimer Meeting ?
- 4. Procedures –
 - A. Application for the budgets : locally with co-operations if needed.
 - B. Proceeding Publication : On demand of the fund agency, if needed.
 - C. Preparation : Dates, Place, Speakers, Circulars, Programs, Secretaries
 - i. Dates : 24,25,26 Aug. 2006 (If not available, please, fix it as soon as possible and reserve it.)
 - ii. Place :
 - 1. 1st ATHIC in Seoul, Korea.
 - 2. 2nd ATHIC in China
 - 3. 3rd ATHIC in Japan and cyclic

- iii. Speakers : each organization committee selects or recommends the speakers (in principle, equal number of speakers in each country) to the steering committee.
- iv. Host Organization : responsible for the circular, ATHIC secretary.

D.
