

Session Program

10-12 Apr 2011

**International Conference on Physics in
Memoriam Acad. Prof. Matey Mateev**

First Afternoon Session

Monday 11 April

14:40

First Afternoon Session

Session | **Convener:** Angelo Della Selva

14:40–15:15

Primordial nucleosynthesis and the radiation content of the early universe

Speaker

Gennaro Miele

15:15–15:40

From Mateev's baryogenesis ideas to contemporary cosmological constraints

Speaker

Daniela Kirilova

15:40–16:15

Representations and q-Deformation of Anti de Sitter Symmetry

Speaker

Vladimir Dobrev

16:15–16:50

Why neutrinos are different

Speaker

Jean-Marie Frere

16:50
