

# SA1 Y1 Status

Francesco Giacomini

INFN

EMI All-Hands Meeting

Lund, May 2011

# SA1 Objectives

- Maintain software deployed in production according to the needs of our users
  - i.e. fix bugs promptly
- Provide good quality software releases
- Ensure proper support to our users, together with the infrastructure providers (e.g. EGI)
- Do the above in a controlled way

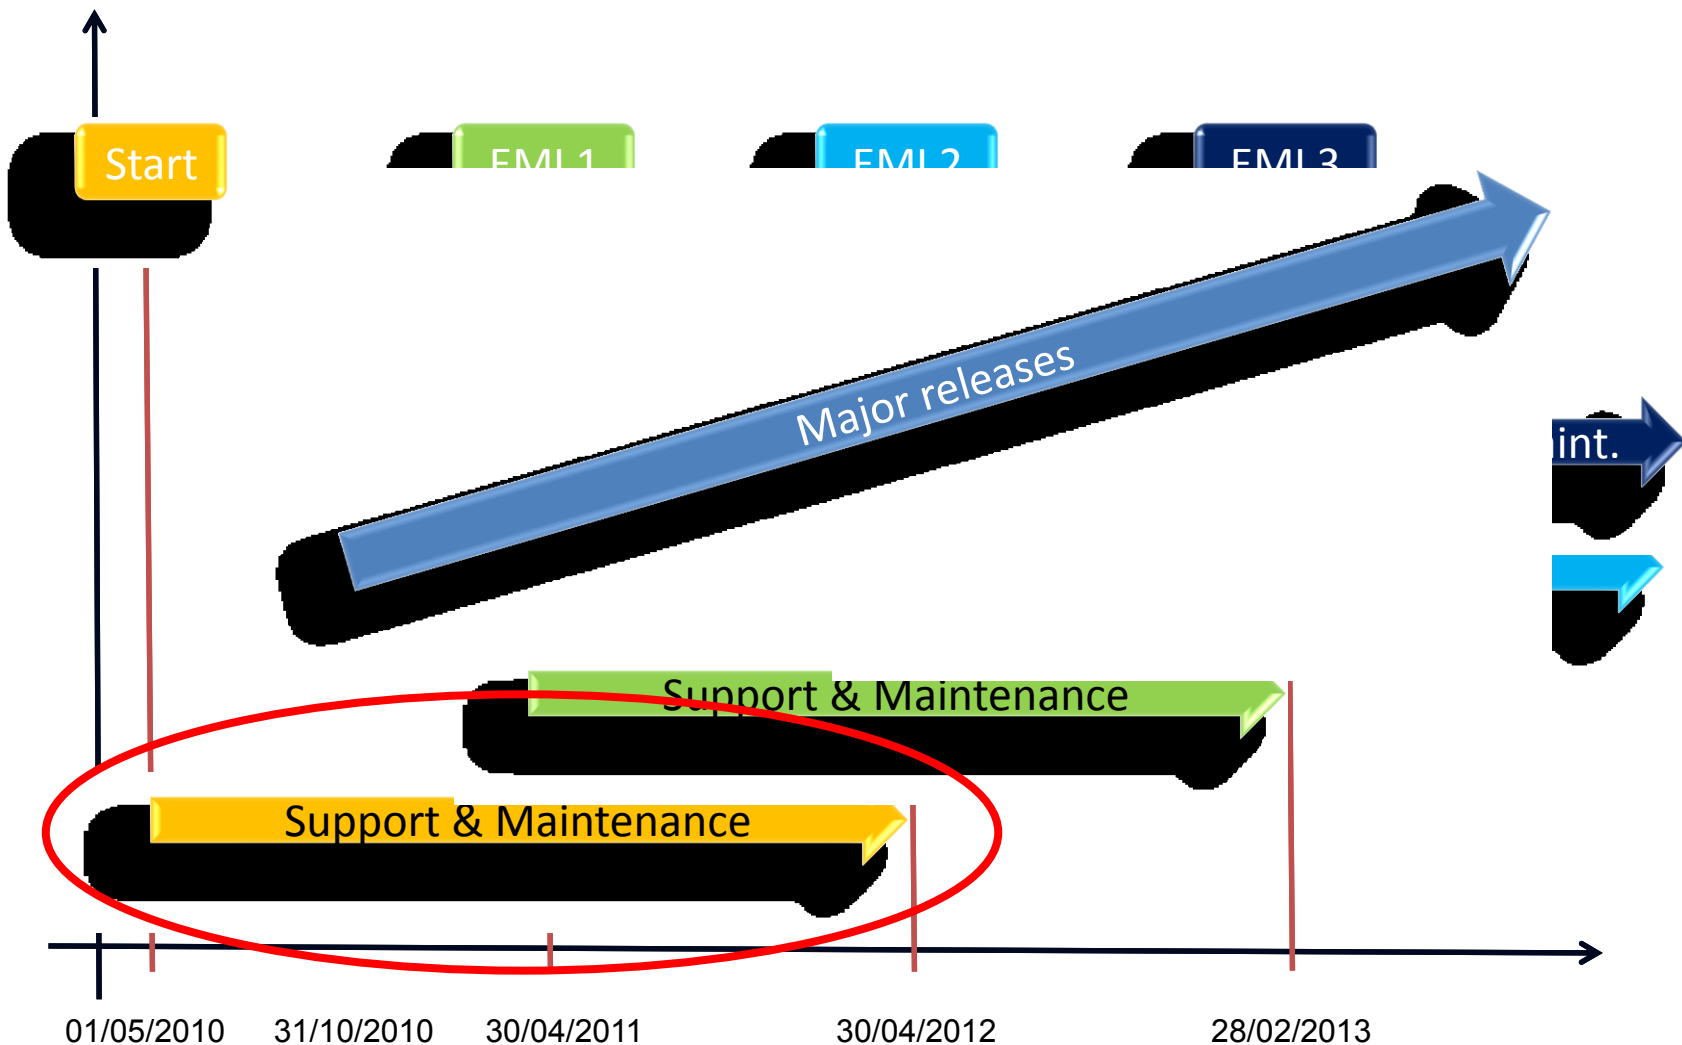

# Achievements

- We (as a project) have delivered!
- EMI 1 is there
- Processes to support and maintain the released software are there
- Processes' execution is monitored
- Remember where we started...

# Tasks

- TSA1.2 Software Maintenance
- TSA1.4 Quality Control – Giuseppe
- TSA1.5 User Support – Mathilde
- TSA1.3 Release Management – Cristina

# Software Maintenance

Constant flow of updates in ARC, dCache, gLite and UNICORE

**Thank you**

EMI is partially funded by the European Commission under Grant Agreement INFSO-RI-261611
