polymer Lab , composite Lab , electrical services , IT, HVAC etc...etc..

-The facilities/workshops are important at CERN, in 1996 the period of the first GEMs these workshops were grouped , the mass was enough to create a department.
Remember that there's only 5 mains departments at CERN.

-8 presentations

-Not an exhaustive list there is many others :
polymer Lab , composite Lab , electrical services , IT, HVAC etc...etc..

-The facilities/workshops are important at CERN, in 1996 the period of the first GEMs these workshops were grouped , the mass was enough to create a department.
Remember that there's only 5 mains departments at CERN.

-Workshops are playing a key role at CERN in keeping knowledge and knowhow on many technologies . This is a mandatory position to be able to discuss with industry.

- 8 presentations

- Electronics service → Raphael Berberat
- Electronics assembly workshop → Sylvain Kaufmann
- "Atelier principal" → Jorge Guardia Valenzuela
- Surface treatment → Mauro Taborelli
- Thin film Coatings → Mauro Taborelli
- Chemicals and surface analysis → Marcel Himmerlich
- EP thin film & glass service → Thomas Schneider
- Materials engineering and inspection facilities → Stefano Sgobba

-To finish my introduction I will cite my first group leader,
He was always using nice metaphors to explain how important are the workshops.
