Accelerators at
Paul Scherrer Institute

Injection in electron machines

- Kicker systems
- Septa systems
- Synchronization
- Precision measurements

The main image is an aerial photograph of the Paul Scherrer Institute (PSI) campus, showing a winding river and various buildings. Two inset photographs are overlaid: the top-left inset shows the interior of the SwissFEL accelerator tunnel, and the top-right inset shows the interior of the SLS synchrotron storage ring. The text labels 'SwissFEL', 'SLS', 'PROSCAN', and 'HIPA' are placed over the aerial view, with yellow starburst markers pointing to their locations. The text 'Accelerators at Paul Scherrerr Institute' is at the bottom right. A list of topics related to injection in electron machines is on the left side of the main image.
