# Tier-1 deployed capacity and near-term projections

Allocation assumptions

- LHC requirements taken from CRIC.
  - Allocations doesn't show any increase to cover the potential loss of Russian resources.
- CPU hardware not in production yet.
  - It is ready but being used to test LHCONE integration.
- Tape allocation for non-LHC VOs has been updated to 15% for FY23/24.
- Assuming LTO-10 are available in Q1 2024.
