

Foundational tests of Quantum Mechanics at the LHC

20-22 March 2023, Oxford

Yoav	Afik	CERN
Juan Antonio	Aguilar-Saavedra	IFT UAM-CSIC
Clelia	Altomonte	King's College London
Rachel	Ashby Pickering	Warwick University
Keith	Baker	Yale University
Alan	Barr	University of Oxford
Alexander	Bernal	Instituto de Física Teórica, UAM-CSIC
Marta	Bielinska	Uniwersytet Gdanski
Pawel	Caban	University of Lodz, Department of Theoretical Physics
Alberto	Casas	Instituto de Física Teórica, IFT
Eimear	Conroy	University of Oxford
Michal	Eckstein	Jagiellonian University
Carlos	Escobar Ibáñez	Instituto de Física Corpuscular (IFIC) - CSIC/UV
Federica	Fabbri	University of Glasgow
Emidio	Gabrielli	University of Trieste
Ynyr	Harris	University of Oxford
Pawel	Horodecki	Gdańsk University of Technology
James	Howarth	University of Glasgow
Ehud	Hrushovski	Mathematical Institute, University of Oxford
Martina	Javurkova	University of Massachusetts-Amherst
Theo	Maurin	University of Glasgow
Jesus M	Moreno	IFT Madrid
Juan Ramón	Muñoz de Nova	Universidad Complutense de Madrid
Sarayu	Narayan	University of Oxford
Baptiste	Ravina	Georg-August-Universität Göttingen
Jakub	Rembieliński	University of Łódź
Kazuki	Sakurai	University of Warsaw
Claudio	Severi	University of Manchester
Ethan	Simpson	University of Glasgow/CERN
Chris	Timpson	Faculty of Philosophy, University of Oxford
James	Unwin	University of Illinois Chicago
Mira	Varma	Yale University
Vlatko	Vedral	University of Oxford
Iza	Veliscek	University of Oxford
Andrew	Wildridge	Purdue University
Tom	Yildirim	University of Oxford
