

### Me:

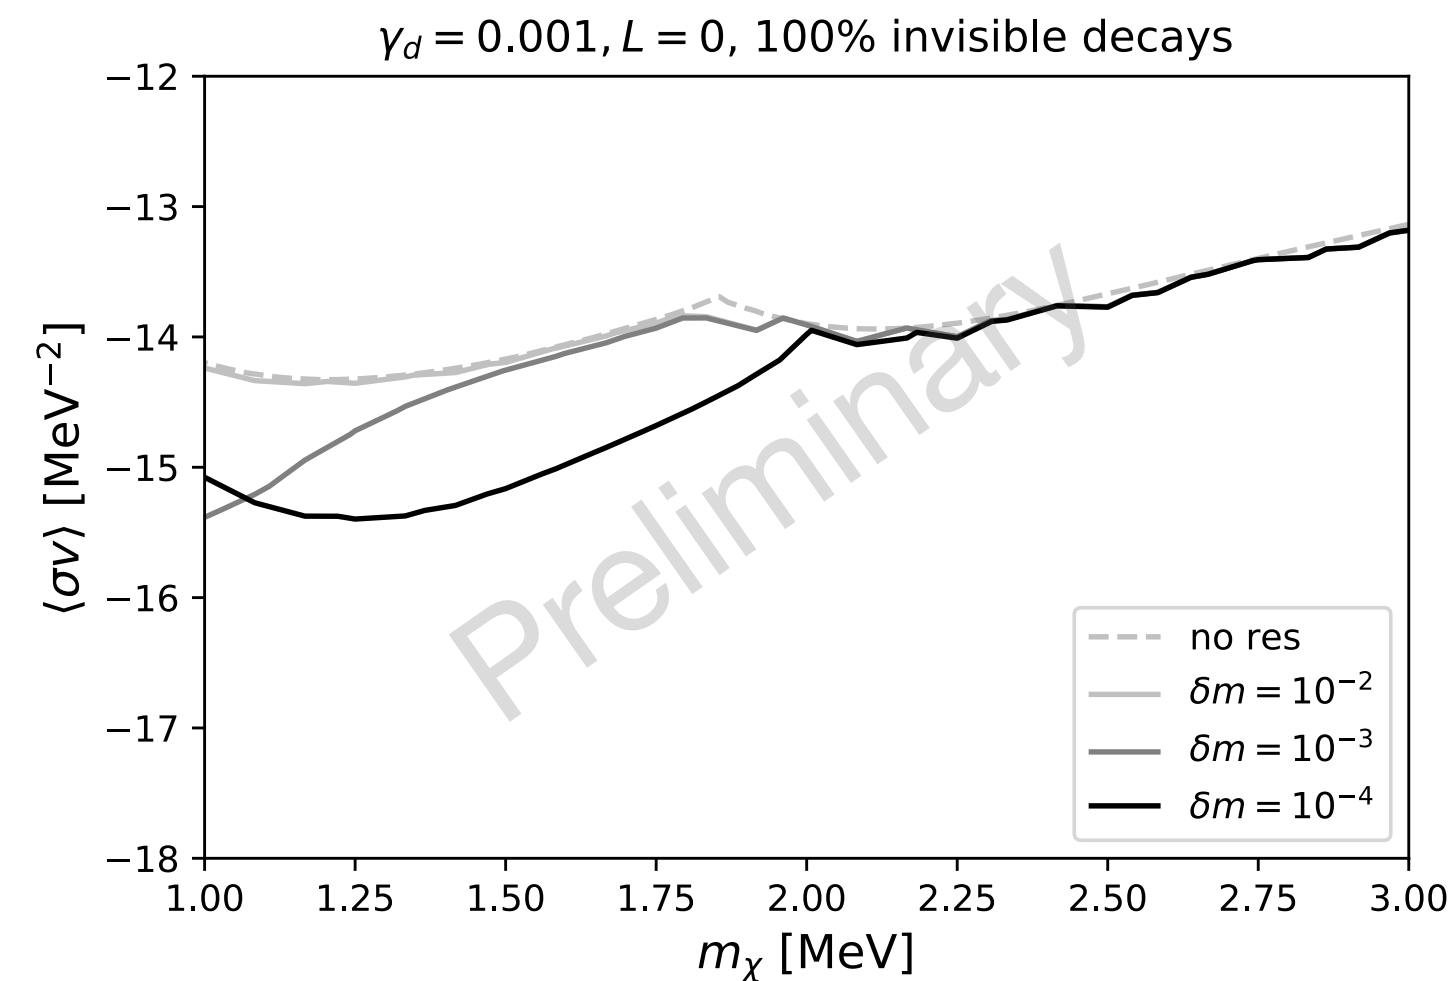

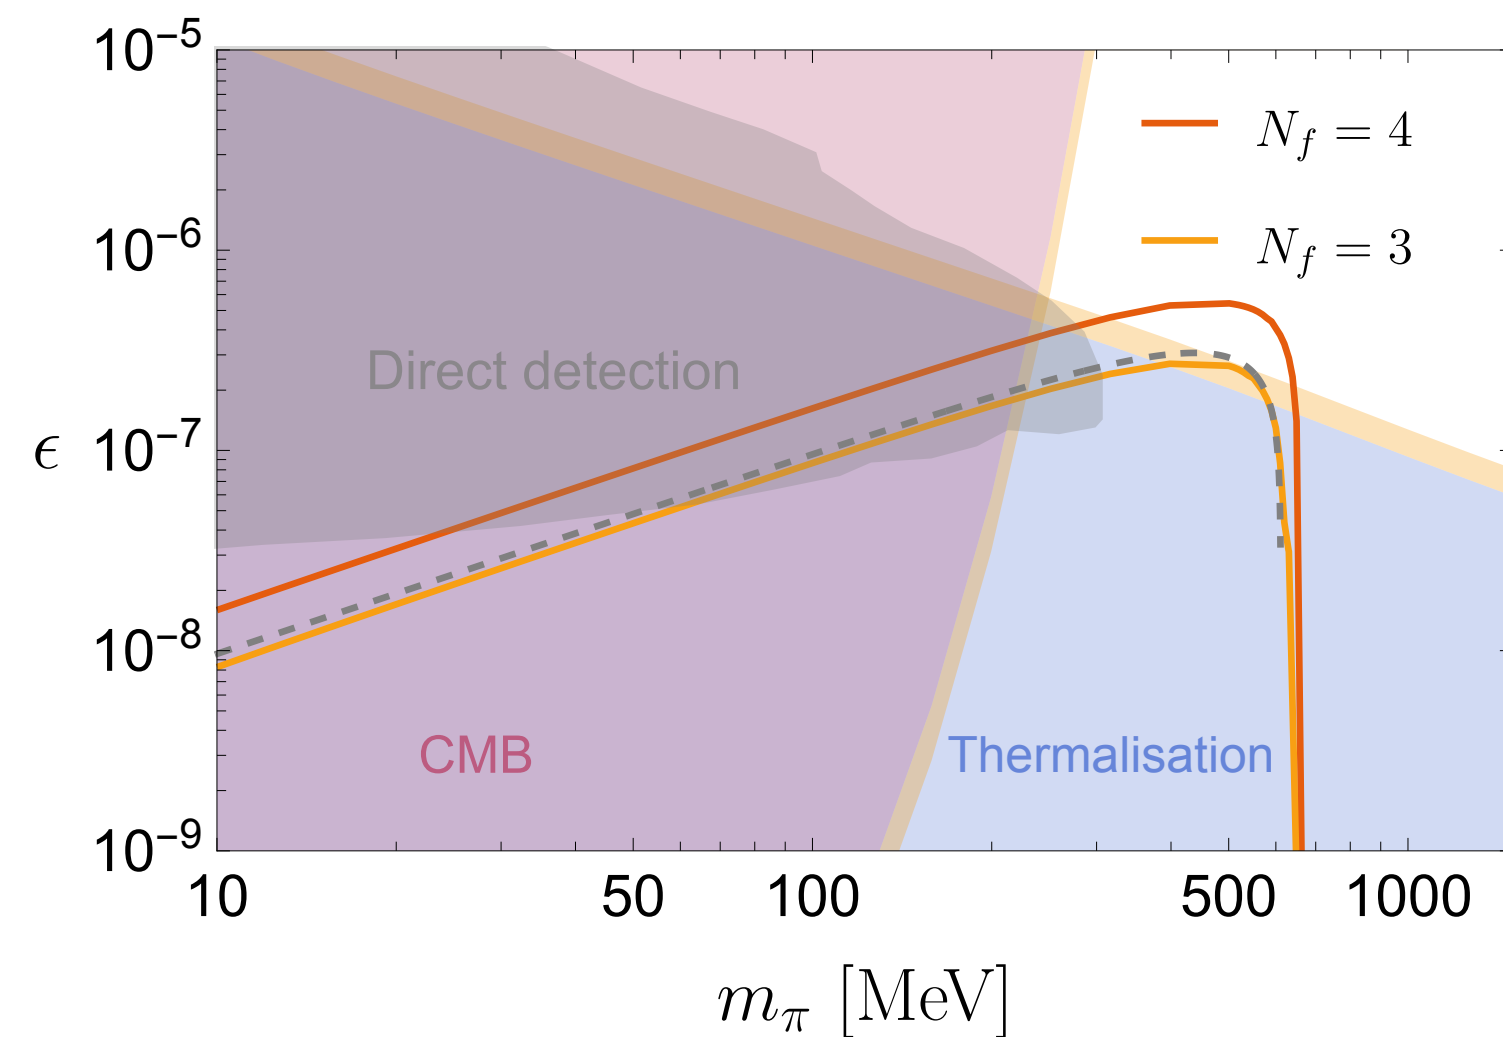

- 2nd year PhD student @ University of Amsterdam and Nikhef
- Supervisor Marieke Postma
- Fun fact: I teach cycle classes @ university gym

### My interests:

- Dark matter phenomenology (MeV - GeV)
- Particle physics models of self-interacting DM
- Cosmology

### My work:

- Hubble tension
- SIMP dark pions & dark photons: arXiv 2301.04513
- Currently BBN and CMB bounds on DM annihilations

If you want to discuss any of these topics, let's talk!
