

GIN – New Activities

Thomas Soddemann, RZG - DEISA

Current and New Activities

Current Activities

- INFO – information systems
- JOB – interoperable job submission and management
- DATA – inter-Grid data exchange
- AUTH – secure and trustable inter-Grid services
- OPS – operations and applications

Interoperable Accounting

Accounting Systems deployed in various Grid infrastructures

- DGAS (EGEE, LCG, Atlas)
- SGAS (Globus – NorduGrid)
- Amie (TeraGrid)
- GASA (APAC?)
- GSAX
- GRASP (not in production ?)
- Apel (EGEE)
- AcctIS (DEISA)

Interoperable Accounting

OGF Standards

- UR-WG Usage Record Format (specification)
- RUS-WG Resource Usage Service (specification draft)

Interoperable Accounting

Implementation of UR-WG format specification

- SGAS
- DGAS (?)
- GSAX
- AcctIS
- ...

Implementation of a RUS-WG interface specification draft

- GSAX
- AcctIS (partly)
- ...

Aims of an Accounting Activity

- Exchange of Accounting data
- Bilateral adherence to data privacy and protection acts
- Reporting back experiences in working with standards/
standard proposals or even drafts
- ...

Other Activities/Topics

- Applications
- Database Access
- Testbed (?)
- Establishing a global Grid infrastructure
