

International workshop "Positronium - from Quantum Physics to Medical Applications"

Wednesday, 26 April 2023 - Friday, 28 April 2023

Split, Croatia

Scientific Programme

The scientific program is organized (but not necessarily restricted) as follows:

Positronium in fundamental research

Ortho-positronium
Discrete symmetries
Quantum entanglement
Simulations

Positronium in medical applications

Gamma polarimetry in PET
Compton and hybrid imaging
Para/ortho-positronium in medical applications
Image reconstruction
