MWDays23 workshop  
CERN

# Welcome from the LOC

- Thank you very much for coming to CERN!
- The whole workshop will take place in this room
- The timetable is available on INDICO [\[Link to INDICO\]](#)
- Internet connection is available via eduroam (more information on the INDICO page)
- If you have asked for it, office space should have been reserved for you (go to the secretariat to get the key of your office)

# Workshop organization

- Each speaker has been asked to prepare a talk of roughly 30 minutes length, while been allocated a 1h slot (45 minutes for the BSM session).
- The idea is that people interact with the speaker during the talk, without waiting the end to make their questions
- On Tuesday we have integrated the EP Seminar from Stefano Camarda on “High-precision measurements of the Z-boson transverse momentum and  $\alpha_s$  with the ATLAS experiment” in the program; the seminar will take place in the council chamber
- On Wednesday afternoon, we have scheduled a discussion session lead by five participants who have been selected as panelists.

# Social dinner

- We thought that it would be nice to have a Swiss cuisine social dinner tomorrow evening
- 35 people expressed interest
- We have reserved at the “Restaurant Le Gruyérien - Plainpalais” (easily reachable via tram from CERN)
- “Restaurant Le Gruyérien”,  
Boulevard de Saint-Georges 65, 1205  
Genève, [\[Link Google Maps\]](#)

# CERN Code of Conduct

- Sexual language and imagery, sexist, racist, or otherwise exclusionary jokes are not appropriate;
- Everyone is welcome, regardless of gender, sexual orientation, gender identity, culture, physical ability, ethnicity, appearance, nationality, age, education, or religious background;
- Questions are welcome, and should be asked and answered respectfully. We want all participants to be able to express their opinions freely.
