Summary of IdeaSquare in CERN Internal Organization Structures

24 February 2023
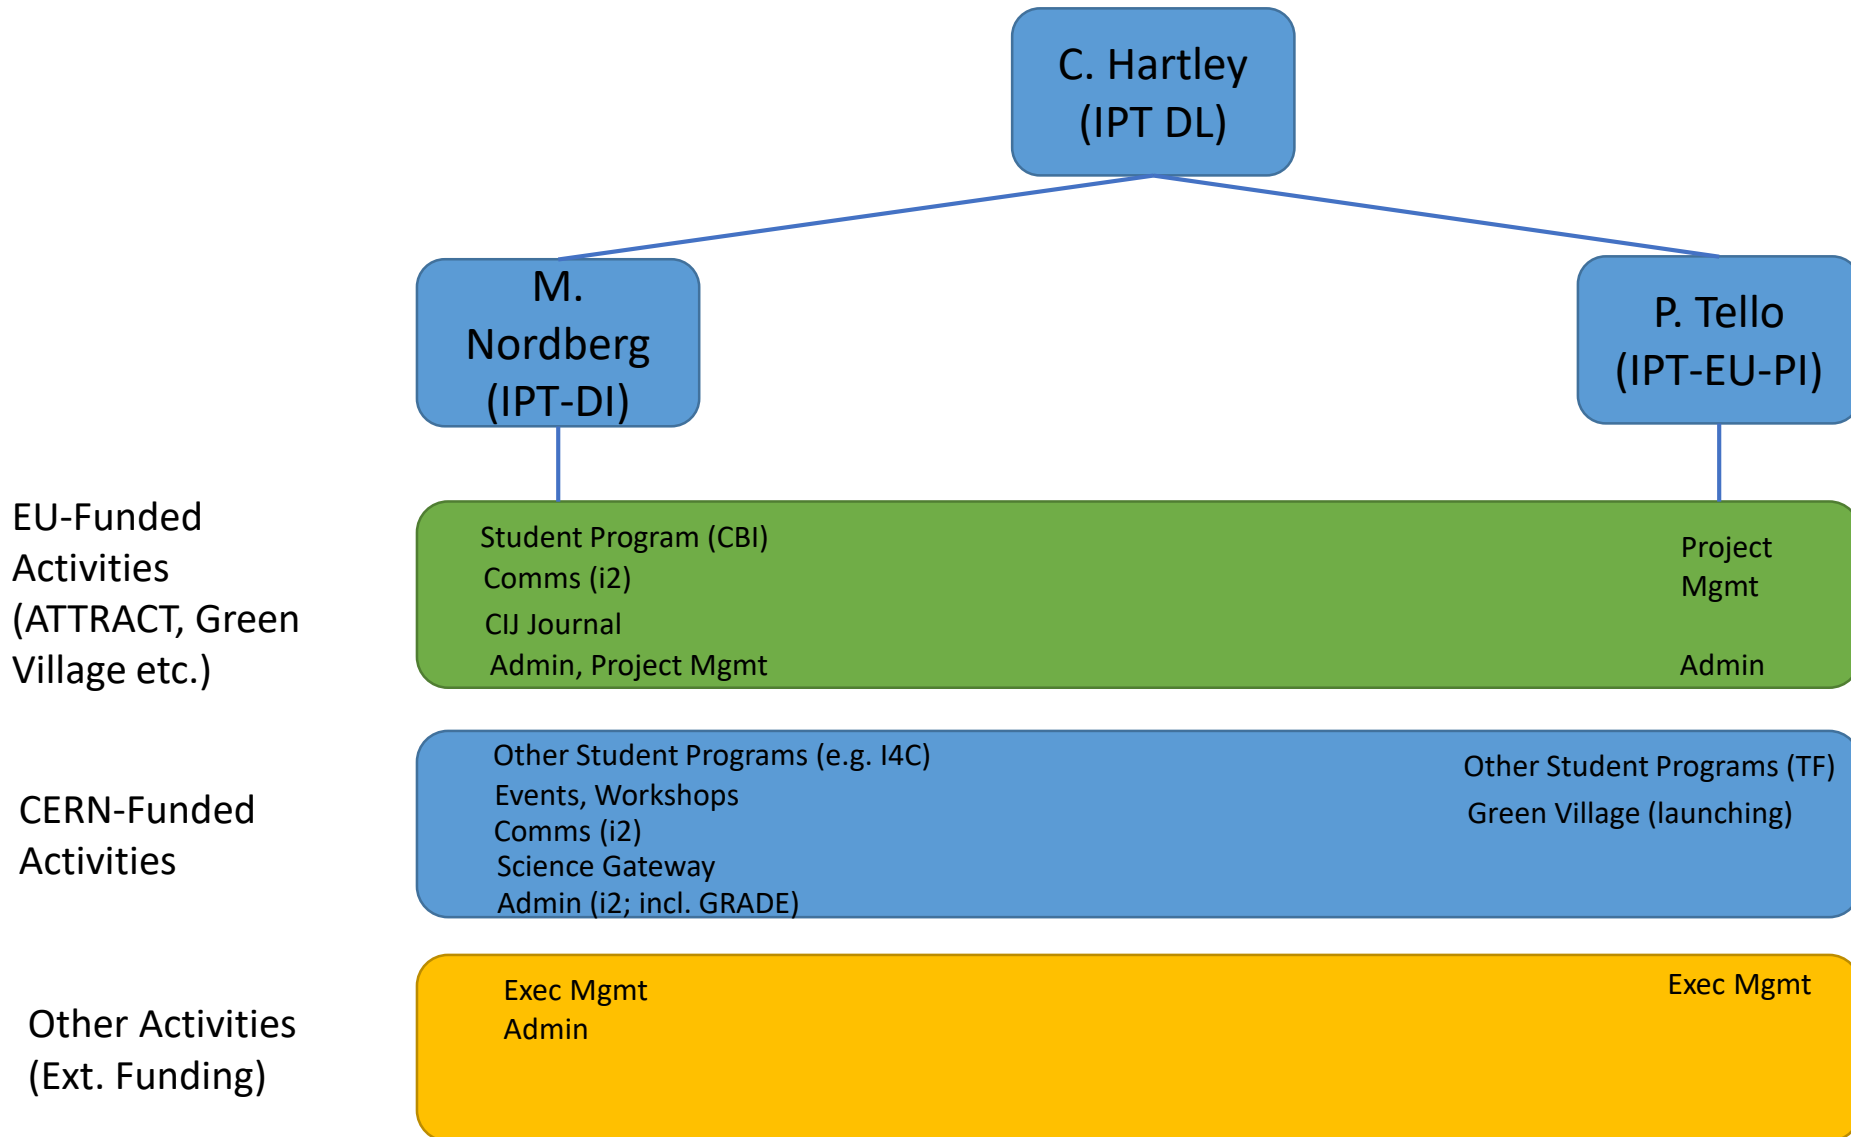

ISAB Meeting

Markus.Nordberg@cern.ch

History of IdeaSquare (internal CERN)

- IdeaSquare created in late 2014 (following a prototype concept in B175 in 2013), alongside with the Neutrino Platform

- Reported to the Director of Research (DG-DI-RCS), using ISAB-G as an Advisory Body

- In 2016, IdeaSquare moved into IPT as part of a new strategy to increase EU-related activities

- As IdeaSquare was widely serving CERN (and outside) beyond EU-activities, it was placed under IPT-DI (note: ATTRACT only started in 2018)

- IdeaSquare currently hosts personnel from: EP, IPT-DI, IPT-EU-PI, IR, SCE (some 20 persons)

- In the following, we limit ourselves <u>only</u> to IPT
