

EPOL News and Updates

Alain Blondel

Jacqueline Keintzel

Guy Wilkinson

Jörg Wenninger

16th March 2023

Upcoming Deadlines and Events

Documentation:

- Mid-term report to be presented at FCC Week 2023
- One sub-section for FCC-EPOL → Draft to be ready by **March 31**
- Requirements document is progressing well → Draft to be ready by **April 30**

Upcoming Workshop and Conferences:

- US-FCC Workshop: April 24 – 26 at BNL (<https://www.bnl.gov/usfccworkshop/>)
 - ~3 EPOL related contributions
- IPAC'23: May 7 – 12 in Venice (<https://www.ipac23.org/>)
 - Overview proceeding: “FCC-ee EPOL Status” → Draft circulated **end March / early April**
 - Are other proceedings being written, which could/should be cross-referenced?
- FCC Week: June 5 – 9 in London (<https://indico.cern.ch/event/1202105/>)
 - 2 EPOL sessions and agenda is being prepared
- Optics Tuning Workshop: June 26 – 28 at CERN (<https://indico.cern.ch/event/1242395/>)
 - EPOL related contributions, agenda being prepared

Data and topic of next meeting to be announced!
Please volunteer suggestions!

FCC Week 2023 - Draft Agenda

Author	Title	Length
J. Keintzel, G. Wilkinson	Introduction to the WG and overview	4
K. Oide	Optics and EPOL	18+3
Y. Wu	Polarization studies	18+3
	Polarimeter	18+3
I. Koop	Spin based beam energy measurements	18+3

Author	Title	Length
D. Shatilov	Center-of-mass energy shifts	18+4
G. Wilkinson	Energy calibration challenges for above the Z-energy	18+4
Z. Zhang	Monochromatization options for FCC-ee lattices	18+4
J. Keintzel et al	The road map to the final report	18+4
