

# ACCELERATING THE ADOPTION OF **OPEN SCIENCE**

## CERN-NASA Open Science Summit 2023

**July 10th - 14th, 2023**

CERN, Globe of Science and Innovation, Geneva, Switzerland

**Spearheaded by two leading organizations at the frontiers of Open Science, this summit intends to accelerate the global movement.**

**This future-focused event will bring together stakeholders in the physical sciences and international policymakers. It will consist of:**

- plenary sessions and panel discussions by progressive global leaders across important domains in Open Science (free morning sessions available to online participants), and
- tailored (in-person) workshop sessions to advance the development of Open Science policies and practical implementation plans

### **In-person participation**

Registration is open from April 5th - 28th, 2023 | Conference Fee: CHF 400,00 (5 days)

### **Remote participation**

Registration will open on May 15th | Online participation free of charge

More information and registration:  
<https://indico.cern.ch/e/os-summit2023>

Participation in the in-person workshops is limited, therefore not all registrations might be considered.
