

# Theory Canada 15

## Mount Allison University

June 15 to 17, 2023

Theory Canada 15 is the fifteenth in a series of small annual conferences organized by the Division of Theoretical Physics (DTP) of the Canadian Association of Physicists (CAP) as a satellite of the CAP Congress. The aim is to foster collaboration and exchange of ideas across theoretical disciplines.

Topics to be covered include:

- condensed matter theory
- mathematical physics
- particles and fields
- quantum information and computation
- relativity, gravitation, and cosmology
- strings and quantum gravity
- nuclear physics theory.

TC 15 is generously supported by the following organizations:
