

Introduction to prototyping

CERN IdeaSquare
Dina Zimmermann

What is a prototype?

Some definitions

“A prototype is a primitive representation or version of a product that a design team typically creates during the design process”

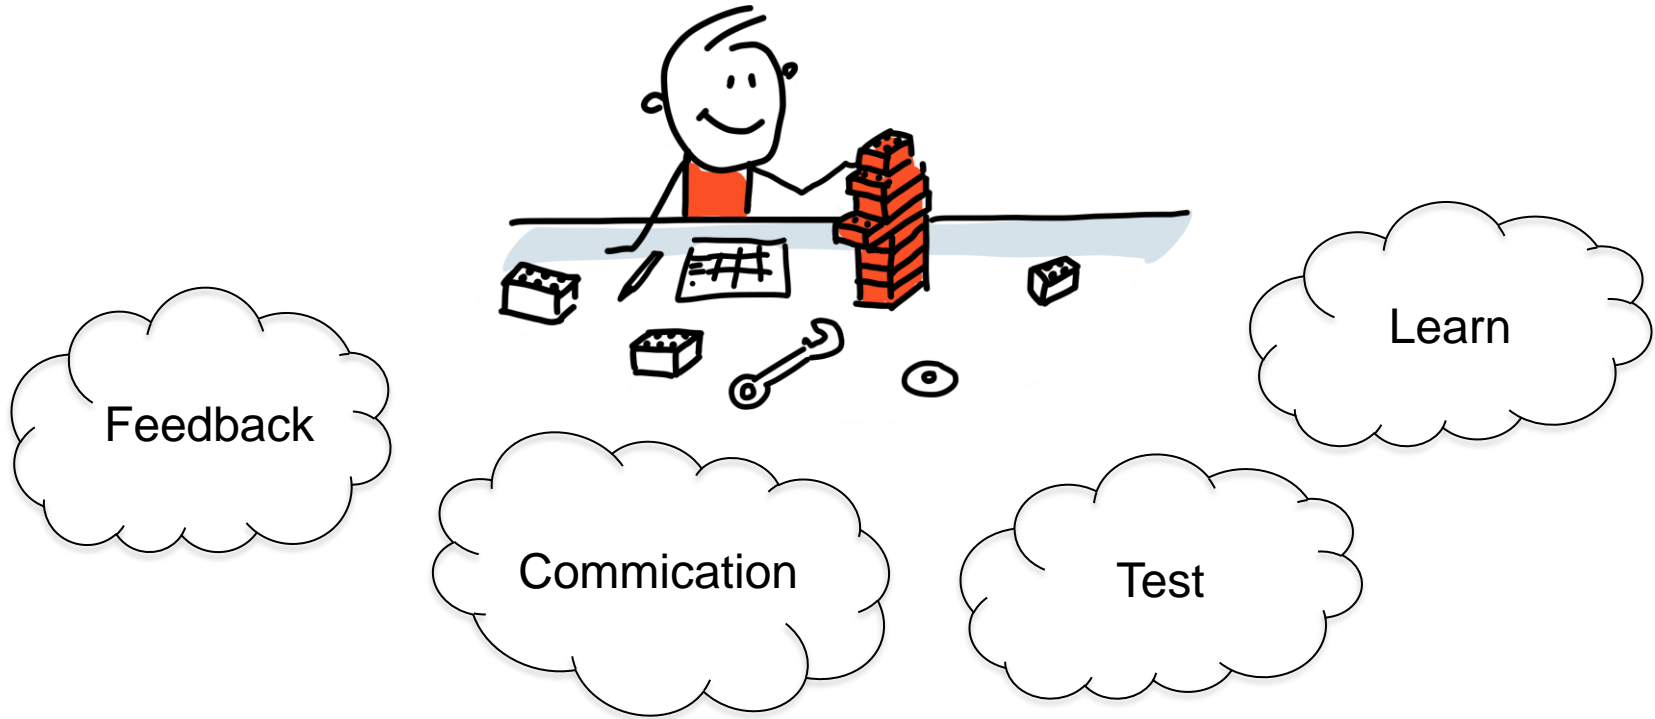

“Any representation of a design idea, regardless of the medium” (Houde and Hill, 1997)

“An approximation of the product along one or more dimensions of interest” (Ulrich & Eppinger, 2016)

**What is the purpose
of prototyping?**

The purposes of prototyping

Different types of prototypes

ATLAS MDT detector disassembly

First prototype

The iterative process of prototyping

Second prototype

But...

A prototype
doesn't have to
be a **product**
prototype

Example: CBI FusionPoint Final Presentation

E	1	20/200
F P	2	20/100
T O Z	3	20/70
L P E D	4	20/50
P E C F D	5	20/40
E D F C Z P	6	20/30
F E L O F E D	7	20/25
D E F F O T E D	8	20/20
L E F O S R O Y	9	
F A P L T O X	10	
V A L L A T E S	11
