Location: Physikzentrum Bad Honnef, Germany

Phase Transitions and Gravitational Waves

Djuna Croon (Durham U.)

Anomalous Symmetries

Joe Davighi (U. of Zurich)

GUTs and Flavor Symmetries

Mu-Chun Chen (UC Irvine)

Experimental Techniques for Dark Matter and Neutrino Detection

Jocelyn Monroe (Royal Holloway London)

Perspectives on Multi-messenger Astrophysics

Mauricio Bustamante (NBI Copenhagen)

SCIENTIFIC ORGANIZING COMMITTEE:

Laura Covi (U. Göttingen) (Chair)

Yasaman Farzan (IPM, Teheran)

Julia Harz (JGU Mainz)

Pilar Hernández (Valencia U. IFIC)

Joerg Jaeckel (U. Heidelberg) (Chair)

Olga Mena (Valencia U., IFIC)

Alessandro Mirizzi (Bari U. and INFN Bari)

Silvia Pascoli (U. Bologna)

Marco Peloso (INFN Padua and Padua U)

Thomas Schwetz (KIT)

Ana Teixeira (Clermont-Ferrand U.),

Jessica Turner (Durham U.)

LOCAL ORGANIZING COMMITTEE:

Francesco Costa (U. Göttingen)

Laura Covi (U. Göttingen)

Joerg Jaeckel (Heidelberg U.)

Valentina Montoya (Heidelberg U.)

Supporting Institutions

This project has received funding /support from the European Union's Horizon 2020 research and innovation programme under the Marie Skłodowska -Curie grant agreement No 860881-HIDDeN"
