GDB Issues

- **MU Pilot Jobs, SCAS, Argus, gLExec**
- **CREAM**
- Virtualisation
- **Installed capacity**
- **OPN**
 - T2 OPN
- CVMS

News

- The R-GMA Registry was closed on 1st March
- APEL clients publishing through their glite-MON will no longer work.
- The few remaining sites who have still to migrate to glite-APEL should do so this month or their March usage will not appear in WLCG Accounting Reports.

Installed Capacity

- **13 WLCG sites not publishing**
- CSC (Finland)
- HEPHY-UIBK (Austria)
- IL-TAU-HEP (Israel)
- NO-NORGRID-T2 (Norway)
- Purdue-Rossmann (USA)
- Purdue-Steele (USA)
- RO-11-NIPNE (Romania)
- RU-Protvino-IHEP (Russia)
- RU-SPbSU (Russia)
- TECHNION-HEP (Israel)
- UFlorida-HPC (USA)
- WARSAW-EGEE (Poland)
- PragueLcg2 (Czech Republic)

Installed Capacity

- Many more sites (59) not publishing SHARE for the LHC VOs
- This is required to establish what fraction of the installed capacity is defined for the LHC VOs
- This may then be compared with the WLCG Pledges
- A report showing installed capacity per site will be sent to the April RRB

Today

- CREAM
- Glxec etc
- Monitoring
- Shared Filesystems
- Experiment Operations

April GDB

- CREAM
 - Deployment
 - Availability
- Information Service
- CVMFS
 - Security review
 - Production service
