

# 16th Topical Seminar on Innovative Particle and Radiation Detectors 25 - 29 September 2023 Siena, Italy

## IPRD23

Società Italiana di Fisica  
Bologna - Italia

FLN 25 Sep 2023

# Welcome to Siena

- on behalf of the organizing committee

**C. Battilana**

**P. Govoni**

**P.S. Marrocchesi**

**M. Paganoni**

**T. Rovelli**

**F.R. Cavallo**

**G. Lehmann**

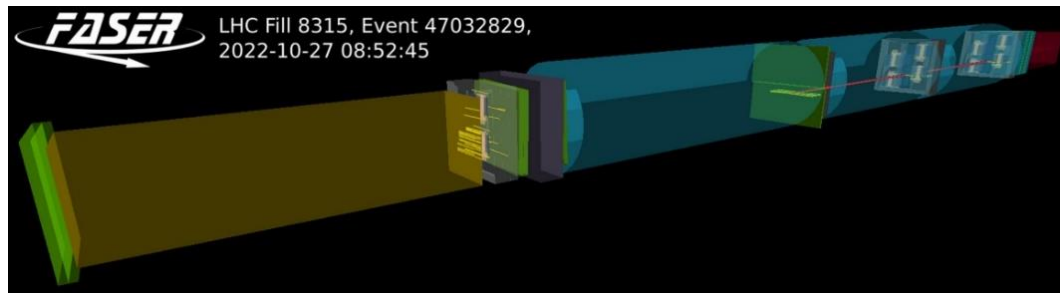

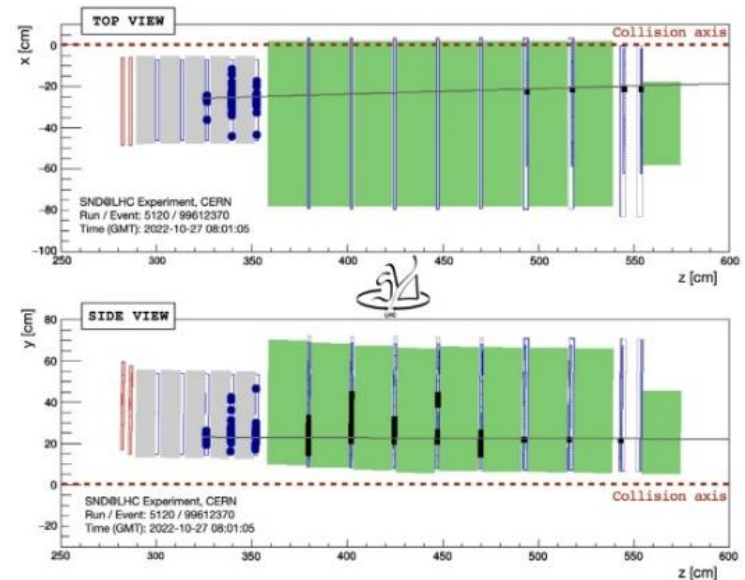

**F.-L. Navarra**

**A. Perrotta**

- thanks to our sponsors: INFN, Univ. of Siena, DIFA Univ. of Bologna, SIF, ASI, CAEN

# 2023 edition (very biased)

- LHC at CERN: 40 years after the first prediction, first  $\nu$ 's detected in 13.6 TeV pp collisions by FASER $\nu$  and SND@LHC were published

# Historical touch

- The San Miniato Topical Seminars started in 1984, then in 2000 moved to Pontignano and in 2001 to Siena – there are several series: detectors, astro/physics results and computing – IPRD23 is the **16th** in a series & the **26th** overall
- The organizers of the first edition were P.G. Pelfer and A. Penzo
- For a long time the e-mail address was [kaos@bo.infn.it](mailto:kaos@bo.infn.it) (now discontinued owing to INFN policy of associating strictly a physical person to an e-mail box -> [perrotta@bo.infn.it](mailto:perrotta@bo.infn.it) ). The origin of **kaos** is in the title of a novel by Luigi Pirandello (born in Caos near Girgenti, Sicily), NP for Literature 1934. The novel later became a movie (1984) directed by Fratelli (Paolo and Vittorio) Taviani, who were born in San Miniato al Tedesco

# IIPRD23 Programme

- highlights
  - Mon 25 19h **Welcome party**
  - Tue 26 19h **Poster session** (with wine&cheese).  
**Posters** are supposed to be permanently on display (so you'll have also time to see them during the breaks)
  - Thu 28 20h **Conference dinner** in Orto de' Pecci
- all talks are in **plenary** sessions in the Crypt
- ... notice that this year the weather forecast seems to be quite good, but still there are no excuses for not attending the talks

# Presentations

- On CERNbox, to be uploaded the day before, the link will be sent to the speaker, either in .pdf or in .pptx, – Later they will be linked and posted on the conference indico Web page
- please stay within your time allocation, which INCLUDES discussions

# Proceedings

- to be published in Journal of Instrumentation (JINST) – instructions will be posted – the proceedings will be made available as a single archive at the end of the process
- **10** pages maximum for 20', 15' talks and posters (obviously you may use less, this is not forbidden),
- but, if you have valid reasons not to comply with the page limit **OR** you do not plan to write up your contribution please inform [perrotta@bo.infn.it](mailto:perrotta@bo.infn.it)
- deadline for manuscripts 24 November **2023**

# Wireless

- UnisiConference
- Password: throstpoft

# Last

- when registering, please check your data and do not forget to give the secretaries your e-mail address
- enjoy the conference
- ... and do not forget the town which is just beautiful and an unique tourist's paradise with perfectly vertical towers
